12. UNITED STATES TAX CONSIDERATIONS

Section 871(m) Withholding Tax

The U.S. Treasury Department has issued regulations under which amounts paid or deemed paid on certain financial instruments that are treated as attributable to U.S.-source dividends could be treated, in whole or in part depending on the circumstances, as a "dividend equivalent" payment that is subject to tax at a rate of 30 per cent. (or a lower rate under an applicable treaty). We have determined that, as of the issue date of the Notes, the Notes will not be subject to withholding under these rules. In certain limited circumstances, however, it is possible for United States alien holders to be liable for tax under these rules with respect to a combination of transactions treated as having been entered into in connection with each other even when no withholding is required. United States alien holders should consult their tax advisor concerning these regulations, subsequent official guidance and regarding any other possible alternative characterisations of their Notes for United States federal income tax purposes. See "*United States Tax Considerations – Dividend Equivalent Payments*" in the Base Prospectus for a more comprehensive discussion of the application of Section 871(m) to the Notes.

Classification for U.S. Tax Purposes

We have determined that there is a material risk that the Notes will not be treated as a debt instrument, but will rather be treated as a forward or derivative contract, for United States federal income tax purposes. In light of this possibility, we intend to treat the Notes in the manner described under "*United States Tax Considerations – Securities Issued by GSFCI – Securities that are not Classified as Debt for United States Tax Purposes*" in the Base Prospectus. If the Notes bear periodic coupons, then, due to uncertainty regarding the U.S. withholding tax treatment of coupon payments on Notes that are not treated as debt, it is expected that withholding agents will (and we, if we are the withholding agent, intend to) withhold on coupon payments on the Notes at a 30 per cent. rate or at a lower rate specified by an applicable income tax treaty under an "other income" or similar provision. No additional amounts will be paid for such withholding tax by us or by the applicable withholding agent. Amounts paid upon the redemption or maturity of the Notes (other than any periodic coupons that are paid at such time) are not expected to be subject to U.S. withholding tax and, if we (including any of our affiliates) are the withholding agent, we do not

intend to withhold on such amounts. You should consult your own tax advisor regarding the U.S. tax consequences of purchasing, holding and disposing of the Notes.

What are the key risks that are specific to the Issuer?

The Issuer is subject to the following key risks:

The Securities are the Issuer's unsecured obligations and the Guarantee is the Guarantor's unsecured obligations. Investors are dependent on the Issuer's and the Guarantor's ability to pay all amounts due on the Securities, and therefore investors are subject to the Issuer's and the Guarantor's credit risk and to changes in the market's view of the Issuer's and Guarantor's creditworthiness. Neither the Securities nor the Guarantee are bank deposits, and they are not insured or guaranteed by any compensation or deposit protection scheme. As a result, GSFCI does not have a significant amount of share capital. Investors are exposed to a significantly greater credit risk by purchasing the Securities where GSFCI is the Issuer than they would be by purchasing securities from an issuer equipped with significantly more capital. If GSFCI becomes insolvent, investors may lose some or all of the amount invested.

Qualifications in audit report on historical financial information: Not applicable; there are no qualifications in the audit report of GSG on its historical financial information

Risk factors associated with the Guarantor:

- GSG is the parent holding company of the group of companies comprising Goldman Sachs. Goldman Sachs is a leading global investment banking, securities and investment management firm that faces a variety of significant risks which may affect GSG's ability to fulfil its obligations under the Securities, including market and credit risks, liquidity risks, business activities and industry risks, operational risks and legal, regulatory and reputational risks.
- Investors are exposed to the credit risk of GSG and its subsidiaries since the assets of GSG consist principally of interests in its subsidiaries. GSG's right as a shareholder to benefit in any distribution of assets of any of its subsidiaries upon the subsidiary's liquidation or otherwise, is junior to the creditors of GSG's subsidiaries. As a result, investors' ability to benefit from any distribution of assets of any of GSG's subsidiaries upon the subsidiary's liquidation or otherwise, is junior to the creditors of GSG's subsidiaries. Any liquidation or otherwise of a subsidiary of GSG may result in GSG being liable for the subsidiary's obligations which could reduce its assets that are available to satisfy its obligations under the guarantee.

What are the key risks that are specific to the Securities?

Risk factors associated with the Securities: The Securities are subject to the following key risks:

- The value and quoted price of your Securities (if any) at any time will reflect many factors and cannot be predicted. Depending on the performance of the Underlying Asset, you may lose some or all of your investment.
- **Risks relating to certain features of the Securities:**
If the terms and conditions of your Securities provide that the Securities are subject to a cap, your ability to participate in any change in the value of the Underlying Asset(s) over the term of the Securities will be limited, no matter how much the level, price, rate or other applicable value of the Underlying Asset(s) may rise beyond the cap level over the life of the Securities. Accordingly, the return on your Securities may be significantly less than if you had purchased the Underlying Asset(s) directly.
- **Risks relating to the Underlying Asset:**
- *The value of and return on your Securities depends on the performance of the Underlying Asset(s)*

The return on your Securities may depend on the performance of one or more Underlying Asset(s). The level, price, rate, net asset value or other applicable value of the Underlying Asset(s) may be subject to unpredictable change over time. This degree of change is known as "volatility". The volatility of an Underlying Asset may be affected by national and international financial, political, military or economic events, including governmental actions, or by the activities of participants in the relevant markets. Any of these events or activities could adversely affect the value of and return on the Securities. Volatility does not imply direction of the level, price, rate, net asset value or other applicable value, though an Underlying Asset that is more volatile is likely to increase or decrease in value more often and/or to a greater extent than one that is less volatile.

- *Past performance of an Underlying Asset is not indicative of future performance*

You should not regard any information about the past performance of the Underlying Asset(s) as indicative of the range of, or trends in, fluctuations in the Underlying Asset(s) that may occur in the future. Underlying Asset(s) may perform differently (or the same) as in the past, and this could have material adverse effect on the value of and return on your Securities.

- Equity indices are comprised of a synthetic portfolio of shares, and as such, the performance of an Index is dependent upon the macroeconomic factors relating to the shares that underlie such Index, such as interest and price levels on the capital markets, currency developments, political factors as well as company-specific factors such as earnings position, market position, risk situation, shareholder structure and distribution policy, as well as the index composition, which may change over time.
- If the relevant Index has a decrement feature, the return on such index will be calculated by reinvesting all gross dividends paid by such index and by subtracting a pre-defined dividend (also known as a synthetic dividend). If the actual ordinary dividends paid by such Index is lower than the pre-defined dividends, the performance of the Index will be less than a traditional "price return" index. As a result, the return of your Securities may be lower than the return of an investment linked to the price of a traditional "price return" index. A decrement feature may also act as a drain on the performance of the Index, and the index level will not reflect the aggregate performance of the underlying total return index but a lesser amount. As a result, the return of your Securities may be lower than the return of an investment linked to the price of a "total return" index.

Quelles sont les risques principaux concernant l'Émetteur ?

L'Émetteur est soumis aux risques essentiels suivants:

- Le paiement de tout montant dû en vertu des Titres est soumis au risque de crédit de l'Émetteur et du Garant. Les Titres sont des obligations non garanties de l'Émetteur et la Garantie constitue une obligation non garantie du Garant. Les investisseurs sont dépendants de la capacité de l'Émetteur et du Garant à régler tous les montants dus en vertu des Titres, et par conséquent les investisseurs sont soumis au risque de crédit de l'Émetteur et du Garant et aux changements de l'opinion du marché sur la qualité de crédit de l'Émetteur et du Garant. Ni les Titres ni la Garantie ne sont des dépôts bancaires et ne sont assurés ou garantis par un quelconque dispositif de protection ou d'indemnisation des dépôts.
- GSG et ses filiales consolidées ("**Goldman Sachs**") constituent un groupe global majeur en matière d'activités de banque d'investissement et de gestion d'investissements et de titres et sont confrontés à une multitude de risques significatifs qui peuvent affecter la capacité de l'Émetteur et du Garant à remplir leurs obligations en vertu des Titres, y compris les risques de marché et de crédit, les risques de liquidité, les risques industriels et d'activités commerciales, les risques opérationnels et les risques juridiques, réglementaires et de réputation.
- GSFCI est une filiale de Goldman Sachs Group détenue à 100% par cette dernière. GSFCI se consacre principalement à l'émission de titres, aux prêts et à la conclusion de transactions de dérivés avec ses affiliés à des fins de couverture, et n'exerce aucune autre activité d'exploitation commerciale. Par conséquent, GSFCI ne dispose pas d'un montant important de capital social. Les investisseurs sont exposés à un risque de crédit significativement plus élevé en achetant les Titres dont GSFCI est l'émetteur que le risque qu'ils encourraient en achetant des titres d'un autre émetteur s'appuyant sur un montant de capital beaucoup plus important. Si GSFCI devient insolvable, les investisseurs peuvent perdre tout ou partie du montant investi.

Si un Évènement d'Autocall survient à une Date d'Observation d'Autocall, alors chaque Titre sera remboursé par anticipation et l'Émetteur devra, à la Date de Paiement d'Autocall correspondant à cette Date d'Observation d'Autocall, s'acquitter pour chaque Titre du Montant de l'Évènement d'Autocall.

Termes définis employés ci-dessus:

- **Dates d'Observation d'Autocall :** 1 août 2024 (i=1), 1 novembre 2024 (i=2), 3 février 2025 (i=3), 2 mai 2025 (i=4), 1 août 2025 (i=5), 3 novembre 2025 (i=6), 2 février 2026 (i=7), 4 mai 2026 (i=8), 3 août 2026 (i=9), 2 novembre 2026 (i=10), 1 février 2027 (i=11), 3 mai 2027 (i=12), 2 août 2027 (i=13), 1 novembre 2027 (i=14), 1 février 2028 (i=15), 2 mai 2028 (i=16), 1 août 2028 (i=17), 1 novembre 2028 (i=18), 1 février 2029 (i=19), 2 mai 2029 (i=20), 1 août 2029 (i=21), 1 novembre 2029 (i=22), 1 février 2030 (i=23), 2 mai 2030 (i=24), 1 août 2030 (i=25), 1 novembre 2030 (i=26), 3 février 2031 (i=27), 2 mai 2031 (i=28), 1 août 2031 (i=29), 3 novembre 2031 (i=30), 2 février 2032 (i=31), 3 mai 2032 (i=32), 2 août 2032 (i=33), 1 novembre 2032 (i=34), 1 février 2033 (i=35), 2 mai 2033 (i=36), 1 août 2033 (i=37), 1 novembre 2033 (i=38), 1 février 2034 (i=39), 2 mai 2034 (i=40), 1 août 2034 (i=41), 1 novembre 2034 (i=42), 1 février 2035 (i=43) et 2 mai 2035 (i=44), dans chaque cas, sous réserve d'ajustement conformément aux modalités.

- **MC :** Montant de Calcul, 1.000 euros.
- **Montant de l'Évènement d'Autocall:** $MC \times (\text{Pourcentage d'Autocall} + \text{Taux de Sortie Autocall})$
- **Pourcentage d'Autocall:** 107,5%.
- **Taux de Sortie Autocall :** $i \times 2,5\%$
- **i :** est un chiffre de 1 à 44 qui représente la Date d'Observation d'Autocall correspondante.

Évènement d'Autocall

Un « Évènement d'Autocall » survient si la Valeur de Référence de l'Autocall à toute Date d'Observation de l'Autocall est supérieure ou égale au Niveau de l'Autocall correspondant pour cette Date d'Observation de l'Autocall.

Termes définis employés ci-dessus :

- **Niveau de l'Autocall** : relativement à une Date d'Observation d'Autocall et l'Actif Sous-Jacent, 105 pour cent (105%) du Prix Initial de l'Actif de cet Actif Sous-Jacent.
- **Prix de Clôture Initial** : le Prix de Référence de l'Actif Sous-Jacent à la date du 1 août 2023, sous réserve d'ajustements conformément aux modalités.
- **Prix de Référence** : le niveau de clôture de l'Indice à la date concernée.
- **Prix Initial de l'Actif** : relativement à l'Actif Sous-Jacent, le Prix de Clôture Initial de cet Actif Sous-Jacent.
- **Valeur de Référence de l'Autocall** : le Prix de Référence de l'Actif Sous-Jacent à la Date d'Observation de l'Autocall concernée.

Montant de Remboursement Anticipé Non Prévu:

Remboursement anticipé non prévu : Les Titres peuvent être remboursés avant l'échéance prévue (i) au choix de l'Émetteur (a) si l'Émetteur parvient à la conclusion qu'un changement dans une loi applicable a pour effet de rendre (ou qu'il y a une très forte probabilité que dans un futur proche elle devienne) illicite ou irréalisable (en tout ou partie) l'exécution par l'Émetteur ou un de ses affiliés des obligations mises à sa charge en vertu des Titres ou des transactions de couvertures en vertu des Titres, (b) quand il y a lieu, si l'Agent de Calcul parvient à la conclusion que certains événements supplémentaires de perturbation ou événements d'ajustement prévus dans les modalités des Titres se sont produits pour l'actif sous-jacent ou (ii) par notification d'un Porteur déclarant que ces Titres sont immédiatement remboursables en raison de la réalisation d'un cas de défaut toujours en cours.

Dans ce cas, le Montant de Remboursement Anticipé Non Prévu payable au titre de ce remboursement anticipé non prévu est, pour chaque Titre, un montant représentant la juste valeur de marché du Titre, compte tenu de tous les facteurs applicables, moins tous les coûts supportés par l'Émetteur ou l'un de ses affiliés à raison de ce remboursement anticipé, y compris les coûts relatifs au dénouement d'une convention portant sur un sous-jacent et/ou d'une convention liée de couverture.

Le Montant de Remboursement Anticipé Non Prévu peut être inférieur à votre investissement initial et il est donc possible que vous perdiez tout ou partie de votre investissement sur un remboursement anticipé non prévu.

Montant de Remboursement Final :

Sauf s'ils ont été préalablement remboursés, ou achetés et annulés, le Montant de Remboursement Final payable pour chaque Titre à la date d'échéance sera comme suit:

Si un Évènement Déclencheur n'est pas survenu, le Montant de Remboursement Final payable pour chaque Titre sera calculé selon la formule ci-dessous :

$$MC \times \text{Pourcentage Déclencheur}$$

Si un Évènement de Seuil n'est pas survenu mais qu'un Évènement Déclencheur est survenu, le Montant de Remboursement Final payable pour chaque Titre sera calculé selon la formule ci-dessous :

$$MC \times \text{Pourcentage de Remboursement}$$

Si un Évènement de Seuil et un Évènement Déclencheur sont survenus, le Montant de Remboursement Final payable pour chaque Titre sera calculé selon la formule ci-dessous :

$$MC \times \frac{\text{Valeur de Référence Finale}}{\text{Valeur de Référence Initiale}}$$

Termes définis employés ci-dessus:

- **Date de Référence Finale** : 1 août 2035.
- **Pourcentage Déclencheur** : 220 pour cent (220%).
- **Pourcentage de Remboursement** : 100 pour cent (100%).

- **Prix de Clôture Final** : le Prix de Référence de l'Actif Sous-Jacent à la Date de Référence Finale, sous réserve d'ajustements conformément aux modalités.
- **Valeur de Référence Finale** : la Valeur Finale.
- **Valeur Finale** : le Prix de Clôture Final de l'Actif Sous-Jacent.
- **Valeur de Référence Initiale** : la Valeur Initiale.
- **Valeur Initiale** : 100 pour cent (100%) du Prix Initial de l'Actif pour l'Actif Sous-Jacent.

Évènement Déclencheur

Un « **Évènement Déclencheur** » survient si la Valeur de Référence du Déclenchement est inférieure au Niveau Déclencheur.

Termes définis employés ci-dessus :

- **Niveau Déclencheur** : 105 pour cent (105%) du Prix Initial de l'Actif de l'Actif Sous-Jacent.
- **Valeur de Référence du Déclenchement** : le Prix de Clôture Final de l'Actif Sous-Jacent.

Évènement de Seuil

Un « **Évènement de Seuil** » survient si la Valeur de Référence du Seuil est inférieure au Niveau du Seuil.

Termes définis employés ci-dessus :

- **Niveau Seuil** : pour l'Actif Sous-Jacent, 70 pour cent (70%) du Prix Initial de l'Actif Sous-Jacent.
- **Valeur de Référence du Seuil** : le Prix de Clôture Final de l'Actif Sous-Jacent.

Toute liquidation ou autre événement affectant une filiale de GSG peut aboutir à ce que

GSG soit responsable des obligations de la filiale ce qui pourrait réduire les actifs disponibles pour satisfaire ses obligations de paiement au titre de la garantie.

Quels sont les risques principaux spécifiques aux Titres ?

Facteurs de risque liés aux Titres : Les Titres sont soumis aux risques principaux suivants :

- La valeur et le prix de cotation de vos Titres (le cas échéant) à tout moment reflèteront plusieurs facteurs et ne peuvent faire l'objet de prédiction. En fonction de la performance de l'Actif Sous-Jacent, vous pouvez perdre tout ou partie de votre investissement.
- **Risques relatifs à certaines caractéristiques des Titres :**

Si les termes et conditions de vos Titres prévoient que les Titres sont soumis à un plafond, votre capacité à bénéficier de tout changement de valeur de l'(des) Actif(s) Sous-Jacent(s) pendant la durée de vie des Titres sera limitée, peu importe dans quelle mesure le niveau, le prix, le taux ou l'autre valeur de l'(des) Actif(s) Sous-Jacent(s) applicable augmente au-dessus du niveau du plafond pendant la durée de vie des Titres. En conséquence, le rendement de vos Titres peut être significativement moins important que dans le cas où vous auriez directement acheté le(s) Actif(s) Sous-Jacent(s).
- **Risques liés à l'Actif Sous-Jacent :**
 - *La valeur et le rendement de vos Titres dépendent de la performance de l'(des) Actif(s) Sous-Jacent(s)*

Le rendement de vos Titres peut dépendre de la performance d'un ou plusieurs Actif(s) Sous-Jacent(s). le niveau, le prix, le taux, la valeur d'actif net ou une autre valeur applicable de l'(des) Actif(s) Sous-Jacent(s) peut être sujet(te) à des changements imprévisibles au fil du temps. Ce degré d'incertitude est désigné par le terme de "volatilité". La volatilité d'un Actif Sous-Jacent peut être affectée par des événements financiers, politiques, militaires ou économiques locaux ou internationaux, y compris des actions gouvernementales, ou par les activités des participants dans le cadre des marchés concernés. L'un ou l'autre de ces événements ou activités pourrait affecter défavorablement la valeur et le rendement des Titres. La volatilité ne donne pas d'indication sur le niveau, le prix, le taux, la valeur d'actif net ou une autre valeur applicable, bien que la valeur d'un Actif Sous-Jacent plus volatile augmentera ou diminuera probablement plus fréquemment et/ou dans une mesure plus importante que pour un actif moins volatile.
 - *La performance passée d'un Actif Sous-Jacent ne constitue pas une indication de performance future*

Vous ne devez considérer aucune information sur la performance passée de l'(des) Actif(s) Sous-Jacent(s) comme donnant une indication sur la fourchette ou les tendances de fluctuations de l'(des) Actif(s) Sous-Jacent(s) qui pourraient survenir dans le futur. La performance de l'(des) Actif(s) Sous-Jacent(s) peut être différente de (ou identique à) ce qu'elle a été dans le passé, et cela pourrait avoir un effet défavorable substantiel sur la valeur et le rendement des Titres.
 - Les indices actions sont constitués de portefeuilles d'actions synthétiques, et comme tel la performance d'un Indice dépend de facteurs macroéconomiques liés aux actions référencées par cet Indice, tels que les niveaux de prix ou de taux d'intérêt sur les marchés de capitaux, les développements en matière de devises, les facteurs politiques ainsi que les facteurs spécifiques aux sociétés tels que la position bénéficiaire, la position de marché, la situation de risque, la structure d'actionariat et la politique de distribution, ainsi que la composition de l'indice, qui peuvent varier au fil du temps.
 - Si l'Indice concerné comporte une caractéristique de décrémentation, le rendement de cet indice sera calculé en réinvestissant tous les dividendes bruts versés par cet indice et en soustrayant un dividende prédéfini (également appelé dividende synthétique). Si les dividendes ordinaires réels versés par cet indice sont inférieurs aux dividendes prédéfinis, la performance de l'indice sera inférieure à celle d'un indice traditionnel de "rendement des prix". Par conséquent, le rendement de vos Titres peut être inférieur au rendement d'un investissement lié au prix d'un indice traditionnel de "rendement des prix". La caractéristique de décrémentation peut également agir négativement sur le rendement de l'Indice, et le niveau de l'indice ne reflètera pas le rendement global de l'indice de rendement total sous-jacent, mais un montant moindre. En conséquence, le rendement de vos Titres peut être inférieur au rendement d'un investissement lié au prix d'un indice de "rendement total".
